

INCIDENT QUICK-REFERENCE SHEET

Finexa (example)

Finexa SAS · SIREN 000 000 000 · Prepared by Firm consultant · For the attention of Thomas Lefèvre, deputy chief executive · Prepared on 1 October 2026

Notification duties already in force apply today, even while compliance work is still under way. At the slightest doubt about an incident, trigger the escalation chain: the shortest deadline is counted in hours.

1 Who to call, in order

1	CISO	Karim Benali, Chief information security officer	+33 1 84 00 00 11	rss@finexa.example
2	Response	Astreinte 24/7, PRIS-qualified incident response provider, call-out contract	+33 1 84 00 00 20	astreinte@prestataire.example

2 Who to notify, and how fast

TEXT	AUTHORITY	DEADLINE AFTER BECOMING AWARE	CHANNEL
GDPR	CNIL Online personal data breach notification service	72 h	Notification cnil.fr
NIS2 (ReCyF)	Via DORA	Financial entity: DORA replaces NIS2 notification (Article 4 of NIS2).	
DORA	ACPR Major incident reporting under instruction no. 2025-I-10	4 h* 72 h 1 month	Initial notification Intermediate report Final report acpr.banque-france.fr
CRA	ENISA, single reporting platform Single reporting platform (Art. 16 CRA), which forwards simultaneously to the coordinating CSIRT	24 h 72 h 14 days / 1 month	Early warning Notification Final report cyber.gouv.fr
AI Act	Market surveillance authority (AI) Channel to be confirmed: designation of French authorities depends on a bill under discussion	2 days 10 days 15 days	Critical infrastructure, widespread Death Other serious incident entreprises.gouv.fr

* DORA: 4 h after classification as a major incident, and no later than 24 h after becoming aware.

AI Act: serious-incident reporting becomes mandatory once the high-risk regime applies (2 December 2027 for Annex III); French authority being designated.

3 The right reflexes

1. Record the exact time you became aware: it starts the clocks.
2. Call the escalation chain in order, without waiting to have all the information.
3. Qualify quickly: personal data affected? service disrupted? major incident under DORA? product vulnerability exploited? high-risk AI system involved?
4. Preserve traces (logs, workstations, backups) before any restoration.
5. Call on the planned technical support (internal team or provider, preferably PRIS-qualified); failing that, the regional CSIRT or 17cyber.gouv.fr.
6. Notify first, complete later: each regime provides for an initial notification then follow-up reports.
7. Keep a timestamped log of all decisions and exchanges.
8. Cyber insurance: file a complaint no later than 72 hours after becoming aware, a condition of compensation (French Insurance Code, Art. L. 12-10-1).
